Reading Matter on every page. How Mayor Stith was Elected Bargain and Corruption.

Just before the late municipal election in New

Orleans, there were three candidates for the May-

LOUISVILLE, KENTUCKY: FRIDAY MORNING, JULY 2, 1858.

oralty. Stith represented the Thug wing of the "American" party, and Harrison the Know Nothing wing, while Beauregard was the independent candidate. The citizens, who were entitled to the name American, had no party candidate, and inended voting for Beauregard, the independent. Before the election came on Harrison withdrew from the field. This withdrawal brought enough votes from the Fourth District to the aid of the Stith faction to elect the Thug candidate by 131 majority. This was an awful falling off from the two thousand majority gotten by Mayor Watermen, but it elected Stith, and that was the thing the Thugs proposed to do. They would rather have had a larger majority, but 131 was better than othing.

On the 21st of June Mayor Stith was inaugurated, and, so soon as he got into office, he dislosed the means by which he was elected. He wes his election to bargain and corruption, as well as to Thuggery. The following card, pub lished in the True Delta of June 22d, gives a portion of the iniquitous compact by which the present Mayor of New Orleans got into office: A CARD.

My name having been mentioned in connection My name having been mentioned in connection with the office of Chief of Police, and the appointment to be made by Gerard Stith, Mayor elect, to that office, I hereby declare that, without my knowledge or agency, on the second of June, instant, some of my friends received at the hands of Mr. Stith a written paper, as follows:

New ORLEANS, June 2, 1858. NEW ORLEANS, June 2, 1000.

I shall take pleasure, if elected, in appointing Lucien Adams, Esq., as Chief of Police during my entire term, and to this I give my word of honor.

[Signed] GERARD STITH.

E. TOLEDANO,
WM. C. HARRISON,
Witnesses. THOMAS ASKEW, BEN. S. HARRISON. This paper afterwards having been shown to me, I consented, if appointed, to accept the office, pledging myself, if properly supported, in less than three months, to rid the city of all well-known and established violators of law; and that no warrant for the arrest of any man, or set of nen, should remain unexcuted, if I were charge

with it, when the offenders were within my juris diction. This I intended to do. Mr. Stith, however, has thought proper to ap Mr. Sitth, nowever, has thought proper to ap-point another gentleman to the office. For this I have nothing to say; it is a matter between him and his constituents; and I sincerely hope, for and his constituents; and 1 smeets, public good, that his appointment may prove suc L. ADAMS.

But, instead of appointing Lucien Adams Chief of Police, as agreed upon, Mayor Stith violated his pledge and gave the office to Thomas E. Adams. The Thugs, no doubt, pressed him so hard that he dared not comply with his promise The following are his appointments:

SECRETARIES. J. L. Fabre and William Salomon. ASSISTANT CLERKS.
Oscar B. Boisfontaine, Frederick Washington nd O. A. Fortier.

CHIEF OF POLICE. Thomas E. Adams. First District—Thomas H. Dryden. Second " Louis Gastinef. Third " Theodore Simon. Fourth " F. L. Newland. WARDEN OF THE WORKHOUSE. Miguel Hernadez.

KEEPER OF THE POLICE JAIL. Edward Planchard, The reign of Thuggery may, therefore, be conidered fully inaugurated in New Orleans by the naguration of Mayor Stith. The Thugs forced nim, we suppose, to disregard the pledge which ecured his election, and the Thugs will make him do just as they please during his term of office .-He is a mere tool in their hands, just as the editor of the Journal here is a tool in the hands of Stith has to obey the Thug as the Plug-Uglian of the Journal obeys the

We can not say, however, that New Orleans de erves anything better. Any city that will for years submit to anarchy, and then get up a vigiance committee to set things right, and fail in the attempt, deserves a bad government. The vigilance committee was an unlawful proceeding, which was bad enough, but it added the disgrac

of defeat to the crime of lawlessness. The manner in which Stith has started out gives no assurance that a more formidable vigiance committee may not be banded there before is term of office expires. If he resolves to rule is the Thugs or Goats direct, there will be trouble. The decent citizens will not stand every wrong, but will right themselves when the endurance of epeated outrages ceases to be a virtue. We hope we shall hear of no more vigilance committees in New Orleans: but we do further hope, if another should spring up there, that it will succeed, and to enough good to atone, in some degree, for the

rime of its lawlessness. The Killing of Jenkins by Lane. Jim Lane, the Black Republican hero of Kansas, has been known to be mad for some time.— The kind of madness with which he was afflicted was not certainly known, however, until he killed his neighbor Jenkins. The facts developed on the trial of Lane for this murder showed that his

lisease was hydrophobia. Lane and Jenkins were neighbors. They lived pon lands concerning which there was a dispute between them, pending in court at the time of the fatal meeting. The Abolitionists claim that Jenkins swore Lane should not occupy these lands no matter how the court might decide the question. This plea was made upon the trial of Lane

o justify him in killing Jenkins. In the yard of Lane, enclosed by his fence, was well of good water. There was a spring on Jenkins' side of the disputed line, but the water was not fit to drink. Lane swore that Jenkins should not take water from this well, and Jenkins wore that he would. There was a gate in Lane's ence which led to the premises of Jenkins, and this gate was fastened up by Lane to keep Jenkins out. Lane said he would kill Jenkins if he forced the gate, and Jenkins said he would force the gate and kill Lane, too, rather than go with-

On the fatal day, Jenkins, armed with an axe and in company with three companions armed with buckets, dippers, and shooting irons, made an assault on the gate and carried it. Lane sat in his porch and forbade the approach of the thirsty invaders. The water seekers approached the well, however, and Lane shot Jenkins and killed him. Some one of the dry party also shot Lane and crippled him. If the seekers of water had been armed with shot guns as Lane was, Lane would have been killed also. But those who were thirsting for water were not as well armed

is he who thirsted for blood. It is plain enough, therefore, that Lane was la boring under the madness of hydrophobia when he killed Jenkins. He could not bear the sight of water, especially as it was about to pass from his own well to the parched lips of his neighbors.— He demanded a drop of blood for every drop of nis water that should be taken, and, as the thing turned out, he got more blood than he lost water He would, no doubt, have been satisfied with the result, had he not lost a few drops of his own blood. That is to say, if an equal measure of his water, instead of his own blood, had gone for the blood of Jenkins, he would have been perfectly

satisfied. The Black Republicans will of course acquit Lane of any wrong in this matter. They will remember the instance in which the Scriptures reord the changing of water into wine, and make the converting of water into blood by Lane no ess sacred. The murdered Jenkins will be prov ed by them to have made dire threats against Lane, and to have sought his water as a mere pretext to take his blood. The assault upon the well by Jenkins and his friends will be regarded by them as an attack upon Lane; and the hydrophobia of the murderer will be excused because the assailing party appeared as four to one .-There will be columns enough written in defense of Lane to make a monument to his memory as

GEN HARNEY RECALLED .- The New York Tri bune's Washington correspondent says the Military Commandant, at St. Louis, was telegraphed, on Monday, to send an express after Gen. Harney, recalling him from the expedition to Utah, where the present force will be placed under command LETTER FROM THE CORPORAL.

[Correspondence of the Louisville Courier.] School Exhibition-Interesting Exercises, etc., etc., LEXINGTON, June 28, 1858.

Editors Louisville Courier: In company with Capt. R. Marsh, your correspondent attended, on Monday afternoon, the exhibition of the pupils of city school No. 3. This school is in charge of Prof. Wm. Crutchfield, assisted by Miss Cattie Milton, a thorough scholar and accomplished ady, and others. The school rooms were tastefully decorated, as usual on such occasions -Wreaths of evergreen, the American eagle and our country's flag, with a bevy of happy girls, proud mammas, and gallant beaux were the ornanents of the exhibition rooms.

The exercises of the afternoon were introduced by the singing of a hymn, and a prayer, when the exercises were observed according to the programme. A very large crowd was in attendance, and all left, at the close, highly delighted with the afternoon's entertainment. En passant, let me remark that Miss Cattie Milton has the Corporal's best bow for her courtesy in furnishing him with a eat in a pleasant part of the room-(right in the midst of half dozen little fairies.) Miss Milton devotes unremitting attention and meets with admirable success in giving the young ladies under her charge a thorough training in both useful and ornamental branches of education. The citizens of Lexington may well feel proud of city school No. 3; its pupils are shining ornaments in soci-ety, and the teachers will rank first in any coun-

The exercises of Monday consisted of the readng of essays by the pupils. Many of the compo-itions were of a very superior order of merit,

those in prose being especially meritorious.

A portion of the exhibition was somewhat novel in its form, and altogether amusing and interest-One little girl would represent a Territor applying for admission into the Union as a State, while another representing the Union, would respond to the appeal. These appeals and responses

ere in both prose and verse.

The recitations were as follows:
"The Raven"—Miss Julia Marsh; "Nothing to Wear"—Miss Ella White; "Song of the Semp-stress"—Miss Kate Marrs; "Song of the Sewing Machine"—Miss Lizzie Zimmerman. I send you the speeches in verse about bigamy afflicted Utah, and one or two of the other Terri

APPEAL FOR ADMISSION

Most timidly of all— For admission and full fellowship, Young UTAH now would call. The she brings no glitt'ring heritage— No fleeting, flow'ry bloom, We ask for the youthful stranger, We ask you to make roon She comes with her giant mountains In glory gleaming high,
Whose tall, stately turrets grandly
And wildly pierce the sky;
With her valleys, where the valiant
Would seek, for freedom's sake,

A home, with peace surrounde Beside her Great Salt Lake! RESPONSE. RESPONSE.

Thou art welcome, beauteous Utah!
With ambition so elate,
To become, on fair conditions,
A noble sister State.
But certain penance, for past sins,
You first must undergo,
Howe'er you thunder at the gate,
With yell or pond'rous blow.

Wash out from off your sterile soil
The fearful dark blood stains
From human hearts, that blacken
Your death-marked, fiery plains;
And let your sinning people lead
Henceforth more moral lives;
Nor priest nor prophet in the land
Claim more than fifteen wives.

We want no more rebellions-That from lady-love and labor Our young men call away. Your Indians must more honest be, And linger nearer home; And not as blo

Abroad as wild beasts roam

Thou art welcome, UTAH! welcome To our proud united band, and none shall be prized higher None more loved throughout the land and thousands from old teeming towns Beside your Great Salt Lake!

The valedictory address, by Miss Julia Marsh was a very beautiful production. Miss Julia's de ivery was clear and distinct, making many happy hits, and displaying oratorical powers that would ut to blush many of those who love to serve the

"dear people."

The following just compliment to Miss Milton, from Miss Julia Marsh, the young lady who delivered the valedictory address, so attracted my uttention by its earnest expression of gratitude, that I was induced to obtain the subjoined extract

or this letter: "This day closes my connection with the city chool. To the accomplished lady who has been for years my instructor here, as well as in another school, which is devoted to religious instruction, I am under obligations, that it would be impossi-ble to give full expression to my feelings in mere words at this parting hour. Were it in my power would wreathe a fadeless garland for her brown is lustrous as her character is beautiful and her worth unmistakeable. Whatever my future may e, that future, I am sure, will take much of its hands. As the first lisped prayer in chilhood is forever remembered, blended with a mother's love and the fondest recollections of home, so shall I ever tenderly cherish, with gratitude, my

nemories of her."
Miss Ella White, Miss Kate Marrs, Miss Lizzie
Eimmerman, and Miss Lizzie Webb exhibited extraordinary proficiency in mental arithmetic, and attracted no little attention. At this exhibition there was no display of furbe-lows, tinsel, or delivery of threadbare quota-tions. The exercises were of a solid nature, and will be retained in memory one's life.

After the exercises there was a general leave taking between the teachers and the pupils, and a more touching scene was never witnessed he pearly drops came to many eyes as the chil lren walked up and exclaimed—"Good bye, Miss Cattie! Good bye, Mr. Crutchfield!" Teachers and pupils, and the audience were all in tears .-Many changes will come over these young children before the "next session takes up." May they enjoy the vacation to repletion, and return to their studies with sparkling eyes and rose-tinted cheeks, is the prayer of the CORPORAL.

[For the Louisville Courier.] Henry Female College Beautiful Surprise. At the conclusion of the literary exercises of he day of the annual commencement, an unusua and significant ceremony occurred, being the pre-

sentation, by the board of trustees, of silver goblets to the female teachers who had been employed in the institution for the past year. One was presented to Mrs. Martha Hamilton, piano teacher; a econd to Mrs. Helen L. Hubbard, and a third to Miss Julia E. Willoughby, teachers in the English department of the college. A fourth was presented by Miss Julia Jones, of Louisville, to Mrs. Sumner, as a token of affection for attentions bestowed upon her years ago when sick. The goblets had been presented and received, and written responses had been made to the donors, and the Principal rose to announce the next exercise in order—the reading of the annual poem, by Miss Sallie M. Bryan—when Mr. C. M. Matthews inter-Sallie M. Bryan—when Mr. C. M. When it is known that Mr. Summer had no in-timation of any such intention, it may be judged that he was, for a moment, at a loss how to meet,

[From the Correspondence of the New York Times.] HAVANA, Wednesday, June 23, 1858.

The greater part of the vessels of the Home equadron have already reached our coasts, and are cruising diligently about the Gulf in search of he offending Britishers. The Wabash saw the Vice Admiral in Jamaica, and received from him every assurance of the speedy cessation of further visits from Her Majesty's cruisers, accompanied with the positive denial of said cruisers having received orders to search any American vessels. He futher stated that the commanders of the Jasper, Buzzard, and Styx would be held to a strict account of their doings. With this information he Wabash put to sea again, and has since been uising on the north side of the Island.

[ From the Philadelphia Press, Tuesday. ] Firemen's Riot at Midnight.

Murders, like other misfortunes, very rarely come singly. A striking exemplification of this trite saying is to be noted in the event of yesterday and last evening. Over a dozen persons were suddenly striken down by death in the very heart of our city, and last night two bloody and fatal affrays of an aggravated character occured to impart to the day which has just passed a truly dreadful aspect. It is known to all of our city readers that for many years past a deadly feud has existed be-tween the members and adherents of the Moya-mensing and Shiffler Hose Companies, which has

frequently evidenced itself in midnight brawls, and in prolonged and fatal riots. A few years since the names of these organizations were a terror to all respectable people, who never ven-tured within their confines. As these companies came to-gether, at Eight and Market streats, shots were fired almost simultaneously, from revolving pis-tols. Two of the shots took effect. One pierced the arm of a small boy upon the sidewalk, the other crashed through the skull of a young man named Samuel Carr, a member of the Shiffler Hose, killing him almost instantly. Sun-Stroke Symptoms and Remedy. We find an interesting article in the New Tork Post on the above named subject. of physical, and particularly, cerebral prostration; the pulse is feeble, the cheeks, and, in fact, the whole surface of the body is pale and ghastly. The blood is defective in quality, thus impeding the vital processes. The heart is evidently the organ at fault, having suddenly succumbed under the fatigue and exhaustion, though the head gives the first intimations of danger.

Convulsions sometimes occur, and in the intervals there are tremblings of the muscles and limbs, not greatly unlike those of delirium tremens.

The premonitions of an attack are readily recognized. There is a feeling of pressure upon the head, the blood tingles in the vessels, the air seems too hot and tenuous for breathing. A person who was once thus affected says that he was cured by immediately bathing the head, arms and shoulders in water. While undergoing this process, he experienced a sensation as if burning coals were spread over the whole scalp, but in less than an hour every oppressive symptom had passed away. A brother of the same gentleman, similarly attacked, was not so cautious. It appeared that the parties do not keep their premises as pure and undefiled as might be this hot weather. In defense Ehret complained that the shed and fence, put up by Mr. Trout, interferes with a window of his, keeping out both light and air. The window in dispute was in a partition between the parties, and it would be equally useful to both. A young lady, on Ehret's side of the house, testified that Trout blocked up the window to keep her from peeping through as they occasionally see sights that ought through, as they occasionally see sights that ought to be kept from the light. We understand subscription books are opened and in the hands of various ministers of the Methodist denomination, for aid to build a Methodist Church in Garnett, Kansas. The town of Garnett is rapidly looking up. The county in which it is situated, that last year contained 2,000 phabitants, now numbers 5,000, and is rapidly increasing. The Leavenworth and Fort Gibson Railroad is to pass through it, and Garnett will, probably, this fall, get the county seat. But, while every thing else is prospering, religion is at an ebb. There is not a church of any denomination in the county. A Presbyterian minister at Garnett preaches in the school house, and there is a cuit, and the Rev. Mr. Moys, the preacher in charge, preaches there every other Sabbath. This however, does not satisfy the few pious persons who live there, and who desire to see the cause of their Master prosper. These, therefore, are about to commence to erect a temple of worship, and ask the generous and the good to aid them.

THE WEATHER .- Yesterday was oppressively warm at 2 o'clock in the afternoon, when Ramsey' thermometer indicated 92. After that it clouded up very suddenly, with a light shower of rain, too light for comfort, though the mercury fell to 84 at

Mr. Ellis, the Democratic candidate for sheriff, took to himself a rib, a day or two since despite the hot weather, and started forthwith or ajaunt to Niagara. He will be home again on the 10th inst., when he will, from that time to the election, vigorously prosecute the canvass. A list circuit established there, called the Garnett Cir- of his appointments for speaking will be found in another column of the Courier.

> Messrs. S. G. Henry & Co. will sell this norning, Friday, at 10 o'clock, for cash, at auction rooms, a variety of groceries, liquors, cigars manufactured tobacco; and also, for account o whom it may concern, sold by order of Adams Express Co., some 50 packages assorted merchandise, to pay charges. A few cases of very supe rior brandies will also be included in the sale.

ANNIVERSARY EXCURSION ON THE NASHVILL RAILROAD .- Those who wish to take a delightfu excursion on Monday next, must not forget that the Nashville Railroad Company will run an excursion train to Muldraugh's Hill on that day starting from here at 71/2 o'clock A. M. It will be seen by the advertisement in another column that the fare for the round trip has been placed at the very low price of one dollar.

To Consumptive Invalids .- We are requested to say, that owing to the number of invalids who have written to Dr. Flower, and are on their way to this city in order to consult him, that Dr. F. has returned to Louisville, Kentucky, and will re main at his office, on the corner of Centre and Green, during the summer months. He is de sirous of establishing a permanent office in this city. His peculiar theory is rapidly gaining for him a successful practice. He offers as usual,

LEG BROKEN. - A lad aged 5 or 6 years, the sor of Mr. Sim Webb, constable in the First District. got his leg broken, yesterday, at Crutchfield's brick yard, on Broadway, near Hancock. The little fellow was amusing himself by following the shaft as it went around, and falling, got his leg into some part of the wood work, and the leg was nstantaneously broken, but the bone seemed not to be shattered. He cried out that he "didn't want his leg cut off," and when told he wouldn' ose the limb, it apparently relieved his distress and pain. Mr. Crutchfield had the little fellow carried home, where he is doing well.

U. S. MARINE HOSPITAL .- During the six months ending July 1st, there were one hundred and sixty-five admissions into the U. S. Marine Hospital, at this port, of whom only two have died. This speaks volumes for the skill and attention of Dr. ame of Hon. Wm. Preston, of this city, is fre R. J. Breckinridge, the physician, and Mr. W. K.

> The admissions to the hospital during the las few weeks have been unusually numerous, and there are more patients now under treatment than have been at any time for twelve months past. This is, we presume, chiefly owing to the excessively hot weather, to exposure, and to the bad whisky the boatmen drink.

THE CITY COUNCIL.—The City Council met last night pursuant to adjournment.

The Board of Aldermen passed an ordinance urning over the notes due the city to the Commissioners of the Sinking Fund to the amount of twenty odd thousand dollars to pay the city's indebtedness to said fund—the city indorsing their notes and making them good.

The appropriation ordinance came up and was The Citizen Guards were granted the use of the upper story of the Union engine house. The Common Council passed an ordinance organizing the Fire Department under a pay sys-

SALE OF LEBANON LOTS .- The sale of lots at Leb anon, Ky., as advertised in this paper, comes off elebration of the anniversary of St. John's day, on Saturday next. Lebanon is in the center of a rich and beautiful country, and is one of the pleasantest villages in the State. It is but a few hours ride per railroad. Interested persons will observe the time of the sale and be on hand.

NOVEL SHIPMENT .- Messrs. Cornwall & Bro merchants and candle and soap manufacturers, of this city, have just received, through the U.S. Custom House here, some one hundred and twenty casks and cases of mare's grease, direct from Buenos Ayres, South America. It is intended for use in their extensive candle and soap manufactory-which, by the way, is one of the largest and most complete "institutions" of the kind in the United States-and will be taken out of bond, as it is required for manufacturing purposes.

DISTRESSING CASUALITY .- On Wednesday night last, the venerable mother of our esteemed fellowcitizen, W. H. Sparke, Esq., merchant of this city, who lived with him at his residence in Jefferson ounty, near O'Bannon's depot, met her death under the following circumstances: About mid night, during the thunder storm, it is supposed she got up to close the windows in her room -She then attempted to go to a small room adjoining, for the same purpose, when she accidentally fell down the stairs, dislocating her neck and causing death instantly. She had attained the ripe old age of eighty years, and was beloved and esteemed by all who knew her.

THEATER-Mr. Loraine's Benefit .- The great lrama of Belphegor, the Mountebank, or the Pride of Birth, will be produced to-night for the benefit of that sterling actor, Mr. Loraine, whose personation of his character in it has been regarded both here and in Europe as unrivalled. It is from the French of Messrs. Dennery and Marc Fournier, and is wonderfully effective. Mr. Loraine has performed it several hundred times with great eclat. Though this gentleman is a fine actor and a great favorite here, the warm weather has interfered with the success of his engagement; out as the severe heat has been much moderated by the recent showers, and the air thoroughly cooled by the thunder-storms, we hope to see such an audience attracted to his benefit this evening. as he deserves to have attend on such an occasion This is the last appearance of Mr. Loraine, and the last night but one of the dramatic season.

SUSPECTED TO BE WORSE THAN THEY SEEM Two young men of the dandy genus, and rather fair looking, who give their names as De Rome and Leon Mever, have flourished about Owen's Hotel for a few days past. Their actions were such as did not please the proprietor, who watch ed them closely; and though no overt act of rascality occurred, in his opinion and the officer who arrested them, it wasn't their fault. They professed to be agents for a counterfeit detecter and said they had bills of subscription against Main street merchants, who couldn't pay at pres ent. This story is good ground for suspicion. Our merchants pay promptly. They left the hotel yesterday without paying their bills, but leaving their trunks, which we are told contained nothing of value. Their suspicious actions induced the proprietor to lodge information with the police and Officers Hammond and Jno. H. Williams trace them to the mail boat, took them in charge, an ommitted them to jail. If they are rascals, Judge Johnston is sure to give them quartering at the Hotel de Thomas.

BALLOONING - PROF. LYNN'S ASCENSION - AL hough the idea of navigating the air was enterained by the ancients, it was never carried out intil the year 1783, when Pilatre de Rozier, superntendent of the Royal Museum, in Paris, made the first successful ascent. However, the great levity of inflammable air or hydrogen gas was discovered seventeen years prior to this by Henry Cavendish, and subsequently experimented on by Black, Cavallo, Montgolfier, and many other philos ophers of Europe, and notwithstanding the many disastrous results which have attended æronauti experiments, such as the death of Rozier, Romain and many others, they seem not to have deterred men in their exertions to conquer the etherial element, and ride upon its invisible wings. It cannot be presumed, even by our most ncorrigible old fogies, that all these experiments will ultimate in no practical good. We shouldn't be surprised "in the course of human events" if the æronaut isn't vet able to start from here at da London, dine with the long-tailed celestials, take ea in San Francisco, and get home by early hed time." Its realization will create no more surprise in the minds of those who live to see it, than Market and Preston streets. The stealer is a has the wonders of steam and the magnetic tele graph in the present age.

At all events, those interested in scientific expe riments, and curiosity seekers too, should encour age by their aid and presence Prof. Lynn, wh contemplates another flight into the heavens on Saturday next, from the lot, corner of First and

THE FIELD TRIAL OF REAPERS AND HARVEST ERS .- The trial of combined and single machine was continued vesterday on the farm of L. S. Dorsey, Jr., adjoining that of Col. Ormsby. The ground was a large field of red clover, very luxuiant, heavy and much fallen. If anything could test the merits of machines of this kind, it would It was, perhaps, too hard a trial for any machine not constructed especially to do such work. I tried the strength of horses, the skill and pa ience of drivers, and put the best points of machines to all they were able to perform. Several f them gave out, which in erect and lighter grass would have worked well, and others that have een hitherto noted for almost invariably doing good work, and a great deal of it, failed by not ittle to come up to the expectations of their ex

After the trial was through, and the several ooks of field notes were passed over to the judges or reference and combination, the persons assemoled upon the grounds retired to a locust grove near Mr. Dorsey's residence, and partook of the good things which a generous Kentucky hospiality had provided. The inner man having been hus comforted, and the officers being engaged at heir computations, it was proposed by some of the company that the machines should be taken o a field of good timothy, about half a mile away, to show the farmers present what they could do in a general way in grass of that kind. All en tered this field but one, which had got disabled in the morning, and most of them performed their work to the admiration of every beholder. So many good machines have rarely been collected ipon any scene of trial at one time-and we doubt so many, which performed to the satisfaction of all observers, were ever before at work in the

One impression, we think, has been very disnctly made by this two-days trial: and that is, hat no combined machine, without very material mprovements, can equal the single machine, either reapers or mowers, in the quality or the amount of their work." Certainly, upon this ocssion, both the best reaping, and the best mowing, all things considered, were done by single nachines. Such, at least, is our individual opinon-fortified by the opinions of many intelligent

Where nearly all did so well, however, it seems juite invidious to make any distinctions. Among combined machines, the battle in the over-field was between the Kentucky Harvester (Miller, Wingate & Co. Louisville,) and the New York Reaper, (Warden, Brockaw & Child, Ohio.) Among single machines, the contest was between Altman & Bell's Mower, (Ohio,) and R. L. Allen' Mower, (New York,) and if ever a more beautiful or more successfal one has taken place, we have

neither seen nor heard of it. Among single machines in the reaping trial vesterday, Moore & Patch's Reaper, (Miller, Wingate & Co. Louisville,) and the New York Hand-Raking Reaper, (Warden, Brockaw & Child, Ohio,) excited universal admiration.

The award of premiums will not be made public until the State Fair in September.

We esteem it a pleasure resting upon our absolute knowledge of its merits to recommend Prof. Wood's Hair Restorative as the best article of the kind with which we are adquainted, and one which has done, under our own observation all that it daims everything implied in its plaims and it claims everything implied in its plaims. claims—and it claims everything implied in its its original color and add to its growth and beau-ty wherever any blight or disease has checked that growth or marked that beauty. ing Cured by Bærhave's Holland Bitters .- Michael Kelly, No. 117 Seventh, near Grant street, says:

"Last July, while running on the river, on a cotton-boat plying between Natchez and New Orleans, I was taken with Fever and Ague. For eight long months suffered with this dreadful disease. The greater part of his time I was unable to work, and spent at least fifty dollars for different medicines, but found no permanent elief. Three weeks ago, one of my friends insisted upo my trying BERHAVE'S HOLLAND BITTERS, say ng that a cure was quaranteed. After taking it for one week, I must state, I was a sound man. I have been at work now for two weeks, and have had no return o the Chills and Fever whatever."

Astoria and Panama at \$348,250 per annum. W. H. Davidge has telegraphed to the Postoffice Department that he has made an arrangement with the Tehuantepec company under the extension to the 1st of October, 1859. The New Orleans papers, received by mail, state that the owners of the steamship Cahawba have made arrangements to receive the Havana mails and passengers by a steam boat from that port so

as to avoid the detention of the Cahawba at Quar ntine on reaching New York.

The Savannah Republican of yesterday, has a etter from Tampa Bay, dated the 24th ult., which

eperts that four prominent citizens were hung he night previous by the Vigilance Committee.— The correctness of the report is questioned.

Railroad Convention Adjourned.

Buffalo, July 1.—The railroad convention for the adjustment of the difficulties between the Erie and Central roads has adjourned. It was resolved that the New York and Erie road be requested to advance the passenger rates to the prices previous to the reduction till the 15th of July. Mr. Moran, the president of the Erie railroad, protested against the resolution and declared that the comnville. pany was not bound by the action of the conven-

The Progress has a notice of an engagement between the Zuloaga forces under Negrete, and the Constitutional troops under J. M. Bello, near sonquimistla, in the the State of Puebla, on the control of the following the retrieval to retrieval to retrieval to retrieval. Oth of June. Col. Negrete was obliged to retreat, not, however, until he had committed great depre-lations in the neighborhood. The first rifle regiment of the Zuloaga Government stationed at Jalapa, pronounced on the 11th nst., in favor of the Constituional party.

Gen. Echeagaray encountered them at Cerr ordo, and put them to flight. Gen. Manero was killed in the engagement. Gen. Alvarez, who overthrew the last govern nent of Santa Anna, and resigned the Presidenritten a letter to President Juarez, congratula ing him on his safe arrival at Vera Cruz, and ledging a cordial support to his Government. Alvarez, with his pintos, was at Providencia, a nacienda in the northern part of the State of Guerro, en route for the city of Mexico.

Col. Cobos, a leader of the Zuloaga party, has ssued, from his headquarters at Cordoba, in the state of Vera Cruz, an order enjoining all to lay lown their arms, and submit to the Zuloaga gov Gen. Santos Degallado, of the Juaraz party, has apured the city of Guadelajara. An engagement between the army under Vidaurri and the troops

of Osollos and Miramon is also reported to have aken place. These reports came to Vera Cruzia the city of Mexico. The recall of Santa Anna vas spoken of as a probable event; also the prodamation of a new constitution, with Osollos as Provisional President. The seaport of Mazatlan, the only one on the

ALARMING OCCURRENCE AT A CIRCUS IN MILWAU-KEE.—During Friday afternoon, while Dan Rice's circus was performing at Milwaukee, a storm sud-denly came up, blowing down the big tent, and piling the audience, about two thousand, men, women, and children into one confused heap.— The scene was terriffic. The storm raged, the rain fell in torrents, some five hundred children ied, and about twice as many women screamed all at one time. All got soaking wet, and the wo-men's bonnets and crinoline, as well as men's hats, were sadly damaged. Wonderful to tell, however, nobody was killed, and no one was se-riously burt.

GIRARD HOUSE, Philadelphia, May 7, 1856.

Prof. CHARLES DECRATH: I freely give it as my opinon that your "Electric Oil" is among the most wonder-ul remedies of modern times. At the earnest request of a lady who alleged she had been relieved of a most painful affection by its use, I was induced to try a bottle, hough at the time of purchasing I fully believed it to be a quack medicine and a catchpenny humbug. But a trial convinces me that it possesses a magic power, and to use will prove a blessing to suffering humanity. I recently took a cold from sleeping in damp sheets, and my neck became so much swollen and painful that I could not turn my head.

After using, without success, everything prescribed by my physician, I last evening tried your Electric Oil. This morning I am well, the relief having been as complete asit was instataneous.

Dr. Flower wishes it distinctly understood that, although he considers Consumption a curable disease, and treats it as such, he does not pretend to cure those who have neither lungs nor constitution left. He would also add that he is accustomed to tell those applying their real situation, and none need apply who are unwilling to learn the truth. A curative treatment will of course only be undertaken in cases where there seems some chance of remedy. Where there is none, the treatment must be merely palliative.

The treatment employed is the breathing of Medicated Vapors into the Lungs, thus producing an action at the very sect of the disease, combined with constitutional remedies, which are sefe, prompt, and effective.

constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

THE RIVER was slowly receding yesterday, with hree feet two inches water in the pass on the falls, by the old mark. In the canal there were 5 feet 4 inches water by the mark. The river during the past 24 hours has receded two inches. The weath was again excessively warm yesterday, the hermometer at 2 P. M. ranging as high as 92 n the shade, but it soon fell, with a slight rain-torm. The rain, however, was very light, and of short duration.

The canal, as we had anticipated, was sufficiently clear of mud yesterday morning to permit the bassage of most of the boats which had been ded. The Landis, New York, Altamont, Cres-City, John Gault, and others, came up, and onarch and others went down.

the Monarch and others went down.

The Monarch, after getting through the canal, by some mishap, lodged hard and fast on the reef below the locks, about midway of the island in the channel above Portland. She had not been moved any at dark, and as the river is falling, she may not possibly get off for some time. She was on her way to New Orleans, and had a couple of

The Altamont, in ascending, after coming up through the canal, was equally unlucky, lodging on the reef of rocks at the falls, just opposite Fifth street. She had a barge in tow, on the outside, which pulled her out of the channel, flanking over and lodging against the rocks. It was thought that she could be got off without much trouble. THE HIGHTH OF THE FLOOD.—Mr. Bird, of Bird's Point, whose memory reaches back to 1800, thinks the flood at Cairo was higher than 1815, and higher than at any subsequent time. The river about Randolph, Mo., is computed to be as high as in '28, and higher than at any year since that time, the highest water, in the meantime, being in '47. Capt. Sellers, who was piloting in 1828, says the average width of the river from Cairo to Vicksburg is 300 feet more than it was at that time; and from Cairo to Memphis there remains scarcely a land-mark standing at that period; and this fact reduces the decision as to the comparative height of the river then and now to

parative height of the river then and now to something of an uncertainty.

Have in many cases desided the skill, heretofore, of the best medical practitioners in the world, and many cases have been abandoned as incurable.

Dr. J. WILLIAMS, Chemist and Pharmaceutist, after studying closely the practice of Drs. Abernethy and J. Johnson, England, and observing the nature of the disease in all its stages, during a sojourn in the southern and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from South Amèrica, certain roots and herbs, from which he prepared an 'Elixir;" which, after eighteen years' use in private practice, has proved itself more efficacious in the cure of Dyspepsia, than any medicine that has ever been prepared in any age or any clime, for the same purpose. Having submitted it, with an explanation of its components, to a number of Physicians of Philadelphia. among whom were the late Drs. Joseph Hartshorne and J. C. Morton, it has received their entire approval, and many of the Medical Faculty are not only prescribing it for their patients, but are using it themselves personally, and in their families. As a tonic, it is unequalled, and its properties are of so invigorating a nature, that it is given with perfect safety and success to the most tender Infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous membrane of the stomach, and requires that only one dose be taken in twenty-four hours; for confirmed Dyspepsia can only be cured by gradually restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsia, accompanied sometimes with a high grade of hypochrondriasis has established the most unbounded confidence in the curative properties of this "Elixir" in corroboration of which dead the following testimonals:

HANSEN'S PIANOS

PREMIUM AWARDED 1856.

ANOTHER TRIUMPH!

The subscriber respectfully invites the attention of the

public, and of purchasers particularly, to the superior PREMIUM PIANOS, Manufactured by him. A splendid

ssortment constantly on hand.
Our Pianos have received a Premium two years in succession, 1856 and 1857, at the Fairs of the American Incession, 1856 and 1857, at the Fairs of the American Institute, Crystal Palace, in competition with most of the leading manufacturers of New York and Boston, and are unquestionably of the best quality of tone, full, round and brilliant, as well as finish and durability, and we flatter ourselves, by the approval of renowned artists, in venturing to say that our Pianos stand superior to many others, and equal to any Grand Piano in regard to volume of tone and elasticity of touch, combined with the greatest firmness, which is very rarely met with in other Pianos.

We respectfully solicit an examination from strangers and friends, to convince themselves of the above before purchasing elsewhere. All our Planos are warranted.
